### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Walter Douglas on Friday, December 16, 2005.

The application has been amended as follows:

#### IN THE CLAIMS:

In claim 1, line 5, after "halide", delete "capable of precipitating silver or copper halide".

2. The following is the Examiner's statement of reasons for allowance: The closest prior art of record fails to teach or reasonably suggest a method for manufacturing a polarizing glass article which includes ion-exchanging of silver or copper metal onto the surface of the glass article after cooling and shaping a glass batch into a glass article, but before subjecting the glass article to elevated temperatures to precipitate silver or copper halide crystals, stretching the article to elongate the crystals in the direction of stress, and exposing the elongated glass to an oxygen-deficient atmosphere to reduce some of the silver or copper halide crystals to silver metal. Therefore, the claims are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
